

# DRAIN SEAL

STOPS FLOOR DRAIN ODORS BEFORE THEY START  
ANY DRAIN - ANYWHERE - EVERY TIME

## DESCRIPTION:

This product is a specially engineered liquid to prime drain traps. This ensures that the trap will remain filled with liquid to preserve the “septic seal”. This seal prevents sewer gases and odors from entering through the trap and endangering the health of the inhabitants. It is ready-to-use directly from the container. Do not dilute. Use whenever drain traps dry out, are not in use, in remote areas, or wherever odors are a problem, such as floor drains, shower drains, etc. Drains treated will resist being washed out with water dependent on the flow rate. All ingredients in DRAIN SEAL are considered by the FDA to be GRAS (Generally Regarded As Safe).

## FEATURES & BENEFITS:

- Eliminates Dangerous Sewer Odors
- Long Lasting
- Biodegradable
- Saves Man Hours

## WORKS GREAT IN:

- Floor, Shower Drains / HVAC / Condensate Drains
- Plumbing Fixtures / Drains with Broken Trap Primers

Note: The use of ENZO II or water is mentioned below in the directions. ENZO II has enzymes and a pleasant product fragrance which provides a continual cleaning and deodorizing residual.

## DIRECTIONS:

### BUILDING SIDE ONLY:

- Pour 1 gallon of ENZO II or water into the drain and then add Drain Seal
- For traps up to 2” - add 3 oz. Drain Seal
  - For traps, 3” or 4” - add 6 oz. Drain Seal

### BUILDING SIDE & DRAIN SIDE:

Pour 1 quart of Drain Seal into an empty gallon plastic water jug. Add water to within 3” from top. Shake the jug vigorously and quickly pour mixed liquid into drain to fill trap seal. Drain Seal will settle on both sides of drain as shown.

Note: Large quantities of water entering the trap may flush out Drain Seal in trap. Simply refill when needed.

## APPLICATIONS:

- Educational Facilities
- Hospitals/ Hospitality
- Stadiums/ Venues
- Vacated Buildings & Apartments
- Vacation Rentals/Cabins
- RV's, Boats, Platforms
- Factories

## PACKAGING VARIATIONS:

SIZE:	SKU:
12 Quarts/Case.....	DRA1232
4 Gal/Case.....	DRA1234
5 Gal Pail.....	DRA1235
30 Gal Drum.....	DRA1236
55 Gal Drum.....	DRA1237
